Claims 7 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 5, 6, 8-17 and 19 rejected under 35 U.S.C. 103(a) as being unpatentable over McMahan et al in view of Schneider.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4, 6 rejected under 35 U.S.C. 102(b) as being anticipated by Joo-Tai.

Claims 1-6, 8-17 and 19 are rejected for the same reasons as set forth in the rejection of the same in the office action of 11/28/06.

In response to the applicants remarks dated 11/28/06 and the applicants remarks directed toward "at least one opening provided in the covering".

Art Unit: 3764

Note element 870, which discloses a means to close an opening in the covering of Schneider.

Note tie members (772), which close "at least one opening provide in the covering (770)" of Schneider.

Supplemental Replies 1) A reply that is supplemental to a reply that is in compliance with 1.11(b) will not be entered as a matter of right except as provided in paragraph (a) (2) (ii) of this section. See 1.11(b). The amendment of 08/06/07 has not been entered.

Applicant is reminded that an opening in a sidewall is not being claimed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
